

Figure 1 is a scatter plot showing the N-S Direction [AU] versus the Sun-Earth Direction [AU]. The plot is a quarter-circle with a radius of 1.0 AU, centered at the Sun (0,0) and Earth (1,0). The y-axis ranges from -1.00 to 1.00, and the x-axis ranges from 0.0 to 1.0. Concentric dashed circles represent distances of 0.25, 0.50, 0.75, and 1.0 AU from the Sun. Objects are labeled with IDs and names, and are colored red, yellow, or green. A vertical line at x=0 is labeled 'N' at the top and 'S' at the bottom. A horizontal line at y=0 is labeled 'Sun' on the left and 'Earth' on the right.
