

Figure 1 is a spatial distribution plot of 100 comets in the E-W plane. The plot shows the E-W Direction [AU] on the x-axis (from -1.00 to 1.00) and the N-S Direction [AU] on the y-axis (from -1.00 to 1.00). Comets are categorized by their minimum orbital distance (q) in AU: $g > 2$ (red), $1.5 < q < 2$ (yellow), $1.2 < q < 1.5$ (green), and $q < 1.2$ (white). The plot includes concentric dashed circles representing distances from the Sun and labels for various comets.
