

Figure 1 is a scatter plot showing the N-S Direction [AU] versus the Sun-Earth Direction [AU]. The plot displays various objects, including the Sun (red circle at the origin), Earth (green circle at 1.0 AU), and numerous other objects (yellow and green circles) with their respective labels. The plot includes concentric dashed circles representing distances from the Sun and a solid black arc representing the Earth's orbit. The N-S Direction ranges from -1.00 to 1.00 AU, and the Sun-Earth Direction ranges from 0.0 to 1.0 AU.
