

Figure 1 is a scatter plot showing the N-S Direction [AU] versus the Sun-Earth Direction [AU]. The plot displays various astronomical objects, including stars and galaxies, plotted as points with labels. The Sun is at the origin (0,0). The Earth is at (1,0). The plot shows a distribution of objects, with some labeled as 'C' (likely comets) and others as 'S' (likely stars). The plot is bounded by a semi-circle representing the Sun-Earth distance.
