

Figure 1 is a scatter plot showing the N-S Direction [AU] versus the Sun-Earth Direction [AU] for various interstellar objects. The plot includes concentric dashed circles representing distances from the Sun (0.25, 0.50, 0.75, 1.00 AU) and a solid arc representing the Earth's orbit (1.00 AU). Objects are labeled with names like 1I/2017 U1, 2I/Borisov, and 3I/Alexander, and are color-coded by size and distance from the Sun.
