

[illegible]

Figure 1 is a scatter plot showing the N-S Direction [AU] versus the Sun-Earth Direction [AU]. The plot includes concentric dashed circles representing distances from the Sun (0.25, 0.50, 0.75, 1.00 AU) and a solid arc representing the Earth's orbit (1.00 AU). Data points are labeled with comet names and their positions. Yellow circles represent comets with N-S direction < 0.25 AU, green circles represent comets with 0.25 < N-S direction < 0.50 AU, and red circles represent comets with N-S direction > 0.50 AU. The Sun is at (0,0) and Earth is at (1,0).
