

Figure 1 is a scatter plot showing the E-W Direction [AU] versus the Sun-Earth Direction [AU]. The plot displays various objects, including comets (open circles) and asteroids (filled circles), with their positions relative to the Sun and Earth. The Sun is at the origin (0,0), and Earth is at (1,0). The plot includes concentric dashed circles representing distances from the Sun and a solid arc representing the Earth's orbit. Objects are labeled with their names and coordinates.

Object	Sun-Earth Direction [AU]	E-W Direction [AU]

Figure 1 is a scatter plot showing the N-S Direction [AU] versus the Sun-Earth Direction [AU]. The plot displays various objects, including the Sun, Earth, and numerous numbered points. The Sun is at the origin (0,0). The Earth is at approximately (1.0, 0.0). The N-S Direction ranges from -1.00 to 1.00 AU, and the Sun-Earth Direction ranges from 0.0 to 1.0 AU. Concentric dashed circles represent distances from the Sun. A solid curve represents the Earth's orbit. Objects are labeled with numbers and some have error bars.
