

The figure is a circular plot representing the spatial distribution of objects in the E-W plane. The horizontal axis is labeled "E-W Direction [AU]" and ranges from -1.00 to 1.00. The vertical axis is labeled "N" at the top and "S" at the bottom. Concentric dashed circles represent distances of 0.5 AU, 1.0 AU, and 1.5 AU from the center. Objects are plotted as colored circles and labeled with their IDs. A legend in the bottom right corner indicates four categories based on g magnitude:

- $g > 2$
- $1.5 < g < 2$
- $1.2 < g < 1.5$
- $g < 1.2$
